The image displays a 10x10 grid of colored squares, possibly representing a heatmap or a data matrix. The colors range from dark purple to light yellow, with a dark purple border on the left and top. The grid is composed of 10 rows and 10 columns of squares. The colors are distributed in a pattern that suggests a data visualization, with darker colors (purple) indicating lower values and lighter colors (yellow) indicating higher values. The dark purple border on the left and top suggests that the first row and first column of the data matrix are not shown or are zeroed out.
